Professional Summary

Motivated Computer Science student specializing in Cybersecurity with a strong passion for software development. Actively involved in organizing university events and expanding technical knowledge through online certifications. Experienced in building desktop applications using Java, Swing, and SQL. Eager to join a dynamic team where I can grow and contribute to innovative software solutions.

Education

Alexandria National University

Bachelor of Computer Science – Cyber Security

2024 – Expected 2028

University Activities

Assistant Secretary – Cultural Committee

- Organized the Ramadan Iftar and University Sports Marathon
- Semester: Spring 2024

Certifications

- Introduction to Network Security – *Mahara Tech, 2024*
- Computer Network Fundamentals – *Mahara Tech, 2024*

Skills

- Programming: Python, Java
- Problem Solving
- Time Management
- Teamwork & Communication
- Git & GitHub
- Networking Basics

Projects

School Management System

Technologies: Java, SQL, Swing, OOP

Just Published a New Project!

I've just completed a full School Management System built using Java and Object-Oriented Programming principles.

🎓 This project includes:

- Student and teacher registration
- Course and grade management
- A full desktop GUI using Java Swing
- Clean architecture following OOP concepts: Encapsulation, Inheritance, Polymorphism, and Abstraction
